Developing our ethos

1 / We are authentic

We define authentic sauna as the experience of being in a sauna that has been thoughtfully constructed to include all the necessary elements of a good sauna. Our sauna is powered by a high quality, clean combustion, wood fired Finnish stove. The stove includes 450lbs of stone to facilitate a soft heat and powerful steam. The interior is almost entirely cedar, creating an incredible aroma. Every detail was thoughtfully considered to create a visually captivating space that adheres to all of the

necessary elements of high quality construction, ventilation, and steam.

Beyond the sauna itself, we commit to always providing an authentic atmosphere. We are people serving people, and our presence will always be genuine. Our founder, Nicole, also holds a clinical doctorate in physical therapy, and with a background in trauma informed and family centered care, the experience, marketing, and any information you encounter will never be gimmicky or an attempt to over-sell. We provide high quality community sauna and its benefits are significant and vast, supported both by research and tradition. We feel no need to over-inflate.

2 / We are community focused

We want to bring people together, entertain and excite. Facilitate a different way of being. Contribute in some way, large or small, to the hard work of healing. We carry with the business model an awareness of individual and collective trauma and the often frazzled approach to the American lifestyle. We want to create a space where people can be who they are as they are, align more fully to who they want to become, and belong in a community of the shared experience of sauna.

3 / We are experience cultivators.

Our authentic sauna will always adhere to the principles listed above (quality build, heat, steam), but the experience of sauna takes many forms. We beg you to experience sauna with us more than once, because each encounter is unique. We look to curate a wide variety of experiences and are always open to exploring new pairings and partnerships.

WELCOME TO

ST. PETE’S NORDIC SOCIAL EXPERIENCE

Coming to St. Petersburg from Denmark, we immediately realized a need to reconnect with our Nordic Traditions. In Scandinavia, it’s a normal practice to jump in the ocean and sauna when you wake up, on your lunch break, or after a long day to reconnect with yourself and with nature. It’s an activity that is enjoyed by everyone and one you can enjoy with anyone – not just yourself. We are excited to bring our tradition and culture to a space where people can enjoy and indulge in the thousand year old traditions of the beautiful Nordic countries.

It works great, I wrap a comforter
around it, I feel like it makes even
hotter or retains more heat.
Personally I would love one
slightly bigger it fits great in a
cubby u set my steps in my
weight room. If it was 5-6" wider
and another 5-6" deeper I feel
like I could stretch my legs more
sitting down is my only
complaint. I realize the extra size
probably affects the strength of
the heater to heat it. Either way a
great investment I'm on my

This is a steam sauna not a dry sauna. Get it steamed up before you get in, usually takes 10 minutes. We use the sauna three times a week for about 20 minutes. We use distilled water. You will get a good sweat, detoxifying. Stay super hydrated before and after. Be sure to wipe the interior after your steam. We leave a fan on after just to help with airing with the door open. We love it. Highly recommend this brand. Easy set up.

I couldn't be happier with my Nordic Ways Steam Sauna. No more running to the gym or the Y. Come home do a few things then into the sauna I go. Great for relaxation and I sleep like a baby after I use it. Can not recommend enough. Thanks again

Hot. Cold. Rest. Repeat!

Sauna bathing is traditionally practiced in rounds. There is value in every phase of this cycle. You are encouraged to go at your own pace and find a balance that works for you. Some guests may complete 3+ sauna rounds during their time on the property. Others may opt to use the sauna for a short while and spend the remainder of the time in the lounge or out by the bonfire. That is absolutely okay. The time is yours to relax and enjoy.
